BARDONA NURSERY

Nursery and Landscape Service

Bardona Nursery is owned and operated by the Fischer Family who for the past twenty years have rendered Nursery and Landscape Service to many in the Pittsburgh District. We again offer our economical service to others.

Scotch Pine

Rapid growing. Ornamental light gray-green foliage. Will grow in poor soil and adverse conditions. Best for quick-growing screens. Mature height 50 to 60 ft.

American Arborvitae

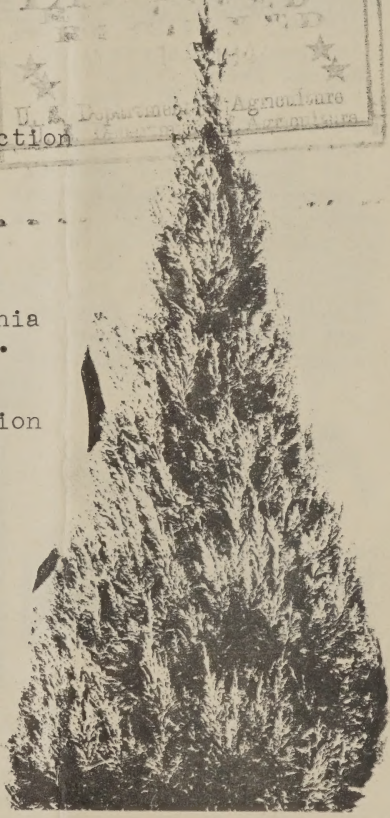

Also called White Cedar. Excellent for hedges and windbreaks. Dark green foliage. Prunes back to any desired height. Prefers moist soil. Mature height 40 to 60 ft.

Austrian Pine

Deep green foliage, needles 4 to 5 in. Prefers rich, light loam with well drained subsoil. Particularly good for city and sea-shore planting. Mature height about 50 ft.

Transplants 6/8" field grown \$1.50 for 12, 50 for \$5.50 2 yr. Transplants 8/10" field grown \$3.50 for 12, 50 for \$12.50. The small sizes are easily transplanted and are easy to mail.

4/8" Baby Stricta

Evergreens Retinopora

12 for \$1. Taxus-Yew

1 Yr. Cuspidata Yew

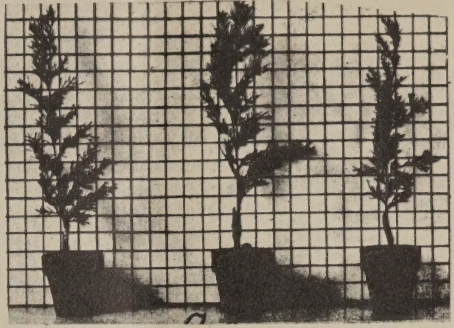

2 Yr. Transplants Jun. C. Sargentii Jun. communis Jun. C. Pfitzeriana 8 to 12-in. Junipers

2 Yr. Transplants

EVERGREENS (cont.) - The following list of evergreens is propagated by grafting, generally more difficult to start and therefore costing more to the customer. It is our aim to carry regular landscape sizes from 1 to 5 ft. in our Nursery.

JUNIPERS TALL TYPES GRAFTED

- Virginiana Chandlers Blue, Glauca,
 - " Camnarti, Pendula,
 - " Elagatissima,
 - " Schotti, Ketleri,
 - Chinensis Columnaris, Oblongo
 - " Columnaris Glauca,
 - " Globosa, Mascuala
- 1-5 ft. size \$1.50 per ft.

The above grafted evergreens in different shades and pyramidal growing types. We always have a few large specimens of the better evergreens and will be glad to quote delivered and planted price on these lovely trees, as they are too difficult to move unless you employ trained men and special equipment.

FLOWERING SHRUBS

Flowering Shrubs are divided into two classes as the Deciduous and the Evergreen Flowering Shrubs.

The Deciduous Flowering Shrubs are in most varieties rapid growers and care should be exercised where they are planted. They furnish the most color and abundance of blooms throughout the summer months.

Flowering Shrubs consist of the Almonds, Buddlias, Clethra, Cornus, Duetzias, Euonymus, Forsythias, Hydrangeas, Lilacs, Spireas, Viburnums.

Flowering Shrubs: 12" to 18", \$1. for 10; 2/3', \$2.50 for 10. The larger sizes and the varieties which are difficult to grow are priced at fair prices. As this group includes so many sizes and varieties, we will be glad to quote on any Flowering Shrubs in desired sizes & varieties.

The Evergreen Shrubs include the Abelias, Azaelias, Cotoneasters, Mahonias, Euonymus, Daphne, Hollies, Leucothe Cataesbi, Kalmias, Pierus, Heather, Cistus, Pyracantha Lelandi and the Rhododendrons.

All these shrubs should be moved with ball of earth B & Baand their habit of growth is not as rapid as the Deciduous group and can be used in limited areas. Prices: 12" to 15" in most varieties B & B \$1. each; prices on request for larger sizes. As we propogate a great number of the Evergreen Shrubs we can furnish them in 4" to 8" sizes in ready to plant paper pots at \$3.50 per dozen.

Flowering Trees are much desired for their beautiful blooms and are easily planted in the small sizes; larger sizes, however, should be moved with ball of earth B & B.

White Dogwood - 2/3 ft.	\$.65	Flowering Plums - 2/3 ft.	\$1.
Red Dogwood - 2/3 ft.	1.00	Flowering Cherries 2/3 ft.	1.
Flowering Crabs - 2/3 ft.	1.00	Magnolias - 12/18"	1.
	White or Red Fl. Peach 2/3 ft.		\$.65

Flowering Trees are in many colors; flowers are single and double. When ordering, please state color and whether single or double flowers are desired.

Shade Trees are necessary, healthful and beautiful in any home grounds.

Silver Maple, 6/8 ft.	\$1.00	Ginko Biloba Maidenhair 3'B&B	\$1.00
Norway Maple, 6/8 ft.	1.50	Liquidamber Sweet Gum 3' B&B	1.00
Schwedleri Maple, 6/8 ft.	2.50	Pine Oak Palustris, 6/8 ft.	2.50
Rubrum Red Maple, 5/6 ft.	1.00	White Oak, 5/6 ft.	1.50
Rock-Sugar Maple, 6/8 ft.	1.00	Red Oak, 5/6 ft.	1.50
Jap. Red Leaf Dwf. 2 ft B&B	2.00	American Linden, 5/6 ft.	1.50
Mt. Ash Red Berries, 5/6 ft.	1.00	Weeping Willow, 5/6 ft.	1.00
Poplar Trees, 8/10 ft.	.65	American Elm, 6/8 ft.	1.00
White Birch C.L. Weeping 4/5'	1.00	Moline Elm, 6/8 ft.	1.50
White Birch European, 5/8 ft.	1.00	Chinese Elm, 6/8 ft.	1.50

Can furnish small sizes for reforestration and the large sizes that require equipment for moving. The above sizes can be planted successfully bare root, unless marked B&B but in larger size Trees we recommend B&B - requires trained men and equipment.

HEDGES, WINDBREAKS, OR NATURAL FENCES

The planting of Evergreen Trees, Flowering Trees, Deciduous Trees, Flowering or Evergreen Shrubs as well as the Privets and Barberries for this purpose.

Scoth or Red Pine Evergreen 12/18" plant 5' apart	100 for \$12.
Pyracantha Lelandi Evergreen Shrub 12" plant 2' apart	100 for \$15.
Spirea Van Houtti 3/4 ft. Fl. Shrub plant 3 ft. apart	100 for \$15.
Viburnum Dentatum 12/18" Berried Shrub plant 3 ft. apart	100 for \$10.
Red Leaf Barberry 12" plant 1 ft. apart	100 for \$10.

HEDGES, etc. (Cont.)

Chinese Elm Seedlings 3/4 ft. plant 6 ft. apart	100 for \$15.
Jap Barberry 12/18" light plant 1 ft. apart	100 for \$3.
Jap Barberry 12/18" heavy mature plant 18" apart	100 for \$10.
California Privet 12/18" plant 1 ft. apart	100 for \$3.
Amoor River hardy privet 18" plant 1 ft. apart	100 for \$6.
Ibota Privet Spreading Privet blue berries 18" plant 2 ft.	100 for \$8.

We just cannot refrain from repeating there are so many plants that make ideal hedges. Just be different with a different type hedge.

VINES FOR MANY PURPOSES

If you insist on a wire, rail, other type fence you can beautify with Grape Vines, Climbing Roses or many other flowering type Vines.

Bittersweet, 2 yr. plants	ea \$.35	Jap. Honeysuckle, 2 yr.	100 for \$10.
Boston Ivy Paper Pots	.35	Vinca Minoer (Myrtle)	100 for \$5.
Polygonum Vines	.35	English Ivy hardy	100 for 10.
Clematis Pan. White	.35	Euonymus	100 for 15.
Clematis purple or red	.75	Wisteria purple 2 yr.	ea. 35¢

For that spot where grass will not grow use vines as ground cover - the English Ivy, Vinca Minor, Euonymus under trees or between the walk and the house or on a steep slope saves the grass cutting and keeps the husband in a better humor.

HARDY NORTHERN GROWN ROSES

As there are thousands of varieties of Roses, we list only a few of the varieties but can furnish any variety grown through our Association Membership, and direct shipping arrangements with rose specialists.

Tea and Hybrid Tea Roses	Hybrid Perpetual Roses
Autumn Burnt Orange	Frau Karl Druchki White
Briarcliffe Rose pink	Magna Charta pink
Betty Uprichard carmine copper orange	Paul Neyron pink
Etoile de Holland dark red	Genl. Jacqueminot red
Mme. Joseph Perraud orange yellow	Mrs. Rowena Thom pink
Mme. Jules Buche white	Pink Radiance pink
Margaret McGrady red gold	Dwarf or Polyantha Roses
Gruss an Teplitz blackish maroon	Mrs. R.M. Finch rosy pink, ideal red
Pres. H. Hoover maroon orange gold	Katherine Zeimet white
Sister Theresa yellow	Gruss an Achem yellow

HARDY CLIMBING ROSES

American Beauty deep pink	American Pillar Pink
Mme. Staeckelin pink	Pauls scarlet red
Dr. Van Fleet white	Primrose Yellow

Can supply everblooming and new climbing roses by direct shipping.

HARDY PERENNIALS AND ANNUALS

As it is impossible to have continuous bloom in your garden without both the perennials and the annuals, we grow both. Will furnish list upon request.

LANDSCAPE GARDENING

It is impossible for us to plant all the nursery stock we sell and quite a lot of folks enjoy the work themselves. We will gladly help by advising in the planting, preparation of soil, fertilizing, drainage or anything that we might have experienced in our years of this work.

Building of Lawns, Rock Gardens, Paths, etc.: If you wish to do this work or have it done by others, we will sell you the supplies.

Our special Lawn Mixture - 50¢ per lb.; 5 lbs. for \$2.; 50 lbs. or more at 35¢ per lb. We can furnish quick growing grass seed. Ask for quotation. Other grass seeds:

Creeping Bent	\$1.00 per lb.	White Dutch Clover	\$1.00 per lb.
Shady Lawn Mixture	.55 per lb	Kentucky Blue Grass	.55 per lb.
	Red Top Grass Seed	.35 per lb.	

All seeds new crop tested, meeting all requirement of laws and regulations.

Can furnish Flower, Perennial and Vegetable seeds through our sales arrangement with Burpee Seed Co. - only the best seeds.

Evergreen Tree seeds - 100 seeds 20¢; 600 seeds \$1., mailed free. Firs, Junipers, Pines, Spruces, Taxus, Hemlocks.

Plant a flat indoors during the winter months, outdoors early Spring.

OTHER SUPPLIES

TOP SOIL - The price of Top Soil is mostly based on the location of your job. Average price around \$2.50 per cu. yd.

HUMUS - High in organic matter and nitrogen. 2 bushel sk. \$1.; 1 ton \$6. Special prices on truck loads.

GROWELL THE ASSN. FERTILIZER - 25 lb. sk. \$1.; 100 lb. sk. \$3.25.

MUSHROOM MANURE - Manure is still the best all purpose fertilizer. 2 bushel sk. 50¢; 1 ton \$4.

STONE - for walks, dry walls, rock gardens - priced according to distance of job.

Grading is an important item and we will be glad to help you establish grades or have this work done according to our direction.

It is our aim to grow better Nursery Stock for this district; and with our years of experience and knowledge of plant life, will be glad to advise as to the hardiness, location, etc. of any nursery stock purchased from us. Ask for advice. Always remember there is a plant for every location; and your own home grounds properly landscaped makes for a more beautiful community.

Duchess Large Green	Sheldon Russet Large	Seckel Small Sweet
Keiffer Hard Winter	Gorham Yellow late	Bosc Russett

Directions for Planting Evergreen Tree Seeds

Planting Indoors: Use flat container 3 inches in depth any size.

100 Seeds to each square foot of planting space—12x12 inches.

Use screened sandy loam and cover seed about three times their own thickness—1-16 of an inch. If seed beds are kept moist at all times, tiny trees should appear in about thirty to fifty days. Liquid fertilizer can be added in accordance with manufacturer's directions.

We suggest using Vitamin B1 after growing starts, or when transplanting seedlings.

Shading is necessary—do not place in direct sunlight. Changing temperature of house will not effect growth.

Planting Outdoors: Use frame or seed bed four feet wide and any length. Beds should contain at least three inches of screened soil.

Shading is necessary for at least two years. Lath shade with 1½ inch openings placed 12 inches above bed.

Care same as indoors, only mulching must be done during winter, with leaves, straw, humus, etc.

Trees may be transplanted when they are three or four inches tall.

Transplant about 4 in. apart. They require care for about 2 years after transplanting, then they can be removed to the field.

1170

Planting Instructions and Care of Evergreens and Shrubs

Keep the root system well moistened until ready to plant.

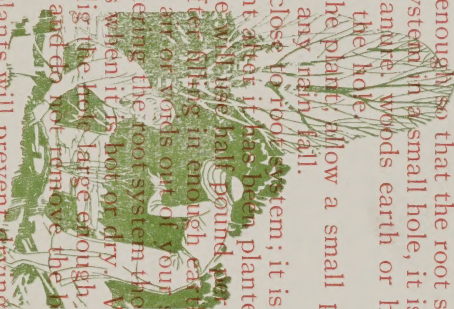

Be sure to dig the hole large enough so that the root system can be spread out natural; do not try to plant a large root system in a small hole, it is better to have a larger hole so that you can add some well rotted manure, woods earth or humus mixed thoroughly with the earth that you have dug out of the hole.

Never hill the earth around the plant; allow a small pocket or depression resembling a saucer; this will catch and hold any rain fall.

Never place strong fertilizer close to root system; it is best to use a smaller amount of fertilizer and dig it in around plant after it has been planted about once each month. A good rule to follow for fertilizer is a tree will use half pound per inch in caliper of the stem per year.

Water plants as you plant; after filling in enough earth to hold the plant in place fill the hole with water, this will take all air or voids out of your soil and fasten it firmly about the root system and follow up by watering the root system thoroughly once each week for four or five weeks, then only water plants when it is hot or dry. When planting balled and burlapped roots of Evergreens and Trees, dig the hole large enough to get some good earth and humus or manure around the entire ball and do not remove the burlap as it will decay, and you will keep the fibrous roots intact.

Mulching all newly planted plants will prevent drying out, heaving from frost, and keep the temperature more even; use grass clippings, hay, straw, manure, humus or peat moss as a cover. Mulch around the plant.
